Wilmington Pike Phase 2, Road Improvements

The contractor is nearing completion on the northwest corner of **Wilmington Pike and Whipp Road (Speedway)**, with some work behind the curb to be completed over the next couple of weeks.

Beginning today, Friday, Sept. 9, traffic on Wilmington Pike and Whipp Road will shift, and southbound traffic on Wilmington Pike from Brown Road to Dille Drive will be affected. This phase includes work on the southwest corner of Wilmington Pike and Whipp Road and median installation on the north end of Wilmington Pike. Expect this construction to last about 30 days. Changes to traffic will be as follows:

Wilmington Pike: Northbound (NB)

Wilmington Pike NB from Dille Drive to Brown Road has two lanes both NB and SB on Wilmington Pike. Work on the new center median could affect the number of lanes NB and SB open during the work day in this area.

Wilmington Pike NB from 675 to Brown Whipp Road will follow the existing lane configuration. The two NB left turn lanes to Whipp Road are open. The NB left into the Morris Furniture driveway will be temporarily closed until the final pavement is placed in October.

Wilmington Pike: Southbound (SB)

Wilmington Pike SB from 500' north of Whipp Road has been shifted east to allow for construction along the west side of the roadway. An additional SB right turn lane is open at Whipp Road. There will be a couple of closures of one thru lane intermittently over the next month during the workday. Driveways (Morris/ Watson/Bob Evans) to businesses along the west side of Wilmington Pike will require short closures during some of this construction. Notice will be given to the affected businesses prior to closures. Additional signage will also be added to guide customers.

The work on the loon near Brown Road is complete and is now open. The final pavement should be in place by the first of November.

Whipp Road/ Feedwire Road Eastbound (EB)

Whipp Road EB traffic west of Wilmington Pike will be effected. Traffic will be limited to two lanes, one EB thru/ left turn lane and one thru right turn lane. The construction is to create an additional EB right turn lane on the south side. Feedwire Road EB traffic east of Wilmington Pike will not be affected.

Westbound (WB)

Both lanes on Whipp Road WB from Wilmington Pike to Kettering corporation line are open. Feedwire Road WB traffic east of Wilmington Pike will not be affected. Two left turn lanes, one thru lane and one right turn lane are now all re-opened.

Centerville Construction Update

Centerville Construction Update is an email notification from the City on current and upcoming road/utility improvements that may affect your travel throughout Centerville. For more information, visit <http://www.centervilleohio.gov> or call (937) 433-7151.
